

# #TUBE SOLUTIONS – MEYER WERFT

- Long-standing customer relationship with Meyer Papenburg over the last 16 years and with Meyer Turku since 2018
- The challenge
  - Mechanically sealed steel tube connections which do not require welding and resist high-pressure applications and/or for highly inflammable areas
- BENTELER-Solution
  - PreFiS fittings installed in every cruise liner for systems of high-pressure water mist for firefighting, CO2 extinguishing and high-pressure cleaning
  - Approx. 16,000 PreFiS fittings per ship
- Customer benefit
  - Connecting strong tubes, certified for extreme pressures up to 630 bar, in the smallest places
  - Easy installation of fittings with the help of a press tool and a hydraulic pump
